Charlevoix County Herald.

VOLUME 31 | EAST JORDAN, MICHIGAN, FRIDAY, JANUARY 14, 1927. | NUMBER 2

School Band To Lansing

East Jordan To Participate In State High School Contest.

It has practically been decided that the East Jordan High School Band will go to Lansing some time the fore part of May to participate in the State High School Band Contest, held under the auspices of the Michigan State College.

This would be a great event in the life of each boy connected with our High School Band. Accordingly, Director John Ter Wee and his boys are bending every effort with this contest in mind. If they do go, which is more than likely, no East Jordan citizen that has heard them play will question but what there will have to be some good Bands in Lansing if we do not come pretty close to the top.

Of course, it will take financial reserve to send them there, not a great deal considering the number of men in the Band. They have had this event in mind forquite a number of months and are only continuing their efforts to supply the necessary means by joining up with Mr. Thomas of the Temple Theatre in a first class picture, Jan. 27th, at which time they will give a concert. By what the writer has learned, it would pay all of us to save Jan. 27th.

The amount of effort the boys put forth and the efficiency shown will largely determine by the citizens and the Board whether they will make the eventful trip mentioned above.

E. J. Loses First Game to Traverse

St. Francis Catholic School of Traverse City always assures East Jordan a good fast game when it comes to Basket Ball, usually one of the best of the season. The game played here last Friday at the High School was exactly this type—a hard fought, sportsmanlike contest—one well worth seeing.

The our fellows showed much development from previous games and it looks as if East Jordan is going to have a basketball team of real merits. It was really the first game of the season, the boys have the "stuff" and are beginning to show what they can do as a team. All but Gleason are likely to be back next year, their work should be very interesting. Every fellow is out for the best and it is of no doubt that every Jordanite is behind them.

Taylor who garnered three field goals and three free throws, leads in the scoring for East Jordan but was overshadowed by the work of his team mate, Barnett, who covered the floor with skill and was a menace to the St. Francis shooters. St. Charles who is clever at handling the ball, showed up well but failed to get into the scoring. Martineau and Emerson starred for St. Francis.

The St. Francis team led at the end of the quarter but the locals had knotted the tally when the gun sounded for the half. During the third period, however, Traverse gained margin which was never to be headed by the locals.

Caro—Mr. and Mrs. Charles Bills celebrated their diamond wedding anniversary on New Year's Day, having been married 60 years. Both were born in Wayne county, the former May 5, 1843; the latter May 25, 1846. Mrs. Bills was married before her seventeenth birthday. Returning from the Civil war as a private in the Twenty-fourth Michigan Volunteer Infantry, Bills married Miss Elizabeth Wesley, January 1, 1867. In 1879 they came to this county, and in 1905 took residence in Caro.

Charles A. Valleau Passed Away at Flint

Charles Valleau of this city passed away at the Hurley Hospital, at Flint, Sunday morning, Jan'y 10th, following an illness from cancer. He had been ailing since September last.

Charles Abner Valleau was born in Wisconsin July 4th, 1860. He was united in marriage to Nettie McCray in Iowa some 42 years ago. He came to Michigan in 1872, and 15 years ago located in East Jordan where he followed his occupation as millwright and saw filer since then. On June 10th, 1922, he was united in marriage to Rachael Neal of East Jordan. Besides the wife, he is survived by two sons, George Valleau of East Jordan, and Lloyd Valleau of Flint. Also by two sisters, Mrs. Thomas Cummings of Hawkey, Ia.; and Mrs. Huldah Neal of Traverse City, Mich. Mr. Valleau was a member of East Jordan Lodge No. 379, F. & A. M.

The remains were taken to Traverse City where funeral services were held Tuesday, Jan'y 11th, from the home of his sister, Mrs. Neal, and conducted by Rev. Cochran. The remains were laid to rest at Long Lake cemetery, near Traverse City.

Our Banks Are Progressing

Both East Jordan Institutions Have Fine Progress During Past Year.

East Jordan's two Banks—The State Bank of East Jordan and The Peoples State Savings Bank held their annual Stockholders' Meeting last Tuesday night. Both institutions showed a remarkably healthy progress during the past year, and indicates that the citizens of this region are prosperous.

DIRECTORS AND OFFICERS

At the annual meetings the following Directors and Officers were elected:—

State Bank of East Jordan—Directors: George Carr, W. E. Malpass, H. P. Porter, W. P. Porter, C. H. Pray, Fred Smith, J. J. Votruba. Officers: President, W. P. Porter, Vice President, Fred Smith; Cashier R. A. Campbell.

Peoples State Savings Bank—Directors: W. A. Stroebel, Roscoe Mackey, John J. Porter, W. H. Parks S. E. Rogers, C. H. Whittington, R. C. Supernaw. Officers: President, W. A. Stroebel; Vice Presidents, R. G. Bisbee and Roscoe Mackey; Cashier, W. C. Corneil; Ass't Cashier, V. D. Barnett.

Marshall—Sheriff George W. Colby and Under Sheriff Peter H. Bhyner, of Battle Creek, traded jobs here on New Year's Day. Bhyner was elected sheriff recently. They have worked together for 30 years.

Marshall—Charles W. Pierce, who has been telegraph operator and ticket agent at various places in Michigan for the Michigan Central Railroad Company for 34 years, has been placed on the pension list. Mr. Pierce has been in poor health the past year.

Pontiac—Discovery of several dogs in the city affected with rabbies has prompted C. A. Neaffe, city health officer, to place a ban on dogs running at large on the streets without muzzles. He has asked the police department to impound all dogs found at large, unmuzzled.

Benton Harbor—F. J. Thar, Benton Harbor fruit grower, is believed to have received the largest return from his strawberry plantation this season of any farmer in Michigan, and possibly in the middle west. From 25 acres of strawberries Mr. Thar sold $18,000 worth of fruit.

Monroe—940 marriage licenses were issued here in 1926, as compared with 2,624 in 1925. The decrease is believed to have resulted from the state law which went into effect August 28, requiring that application must be filed five days prior to the issuance of the license.

Pontiac—After incurring parental displeasure because he arose late one morning, Donald Cameron, 20 year-old motor plant worker, addressed a farewell note to his mother, pinned it to a pillow in the room of his home, then shot himself in the head. He died from the wound inflicted.

Muskegon—Mrs. Arthur Slorf, 48 years old, died from burns suffered when she tried to hurry a fire in a kitchen range with which what officials believe was gasoline. When the woman's clothing caught fire from the explosion, her son, Raymond, was awakened by her screams and tried in vain to put out the flames with a blanket.

More Effective Than Alarm Clocks

School Notes

Girls' Glee Club Elect Officers

The Girls' Glee Club held its regular meeting Thursday night after school, and elected the following officers for the remainder of the year. President, Dorothy Joynt, Vice President, Margaret Staley, Secretary and Treasurer, Evelyn Webster, Librarian, Margaret Bowen

Hot Lunches

The six girls in the eleventh and twelfth grade dietetics class began serving hot lunches Jan'y 6th.

The menu served each noon consists of a hot dish ,a hot beverage, sandwiches, a simple dessert or occasionally a salad.

The work is divided among the girls as follows:—a manager to oversee the work, a girl to prepare the hot dish, a gir to prepare the dessert or salad, a girl to prepare the beverage, a cashier, and an efficiency manager whose place it is to prepare the sandwiches and to see that everything is done as efficiently as possible.

The food is sold for five cents a dish.

The aim of the course is to furnish a hot dish for students carrying cold lunches; to give the girls in the dietetics class a chance to carry out what they have been studying, and also to give them an idea of quantity cookery; and to serve nutritious foods for a limited amout of money.

The Senate is hard up for debate—they are discussing the primary.

"Why join a physical culture class to improve your grip," said the traveling salesman as he parked a quart of Scotch in his traveling bag.

What is Failure?

(From "The Earth Mower")

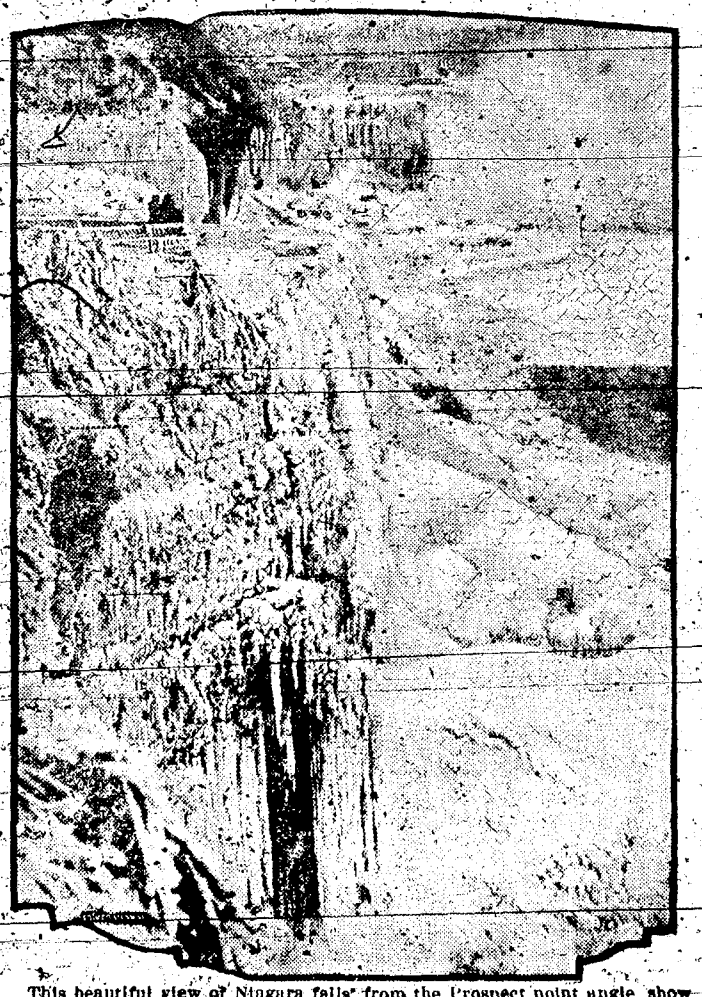

We hear a great hue and cry these days about the failure of the Eighteenth Amendment. Undoubtedly strict enforcement of prohibition law is difficult and probably impossible. Spectacular instances of failure are easy to find. But the croakers who are making so much noise in the social and political pond ignore a most shining example of its success,—the increased efficiency of inudstry, which has made it possible to maintain war-time wages in days of peace; and which enables contractors to maintain a full quota of workers, notwithsttanding holidays and Sundays.

Prohibition is not a moral question. It surely ought not to be a political issue. It is a business question, a question in economics, and should be studied on this basis alone. That it has increased enormously the efficiency and welfare of the individuals who make up this mighty nation there seems to be no shadow of a doubt.

When Prohibition went into force in Dallas, Texas, some years ago, under the olcal option laws, the first noticeable effect was a greatly increased sale of children's shoes.

In 1922 there were 22,415,148 savings accounts in the United States, with $15,314,000,000 deposits in savings banks. In 1925 there were 43,850,000 savings accounts with $23,134,052,000 to their credit. During the same period of prohibition the number of stockholders in building and loan associations increased almost unbelievably. During the same year the automobile industry wrote an amazing record of National and individual prosperity.

Now's the Time to See Niagara Falls

This beautiful view of Niagara falls, from the Prospect point angle, show what winter has done to the great cataract and might well lead many to mak the trip to see the magnificent sight.

Detroit-E. J. Party Friday Night, Jan. 21

Detroit-East Jordan Party, Friday night, Jan'y 21, 1927. All East Jordan people living in or around Detroit are not only invited, but urgently requested to be present at the next Get-to-Gether party given at Atkinson Community House, corner of McGraw and Junction Ave's. This is near Warren Ave. Dancing will be old style and new style, and will commence at 9:00 p. m. and continue until 1:30 a. m. A good time is guaranteed for all. Yes, your cronies will be there in force. Everybody is going this time.—Committee, V. R. Richards, A. Blake, C. Kime.

Com'r A. C. Belding Will Be Candidate To Succeed Himself

Charlevoix County Comm'r of Schools, A. C. Belding, was a business visitor in East Jordan first of the week. While here he stated that he will be a candidate for Commissioner of Schools of Charlevoix Co. at the Primary Election to be held March 7th.

Mr. Belding has served our County very efficiently in this office for some six years. He was appointed to fill vacancy, caused by the resignation of Miss Stewart, and at the close of that term was unapposed in election for the four-year term.

During his years of service, the schools of our County have steadily advanced, and he has introduced some new systems of report charts that keep an accurate record of each and every pupils' studies in the Co. So meritorious were these, that other School Commissioners in our State are today using the same forms.

Detroit—Thomas A. Edison's favorite athletic team, a girls' basketball quintet representing the Edison industries at Orange, N. J., have sent a challenge to the undefeated Central M. E. team to play for the national girls' championship. The Detroit group has an unbroken string of 198 victories while the Edison girls so far have won 51 straight games.

Grand Rapids—Charles, 10-year-old son of Mr. and Mrs. Jim P. Larsen, died as the result of being shot by a playmate. The other boy, 7 years old, had been given a small calibre rifle by another boy, who said that it was not loaded. The bullet hit the street and then glanced upward and pierced the head of the Larsen boy, who was playing on the sidewalk.

Loomis—Although he arose after a fall on the ice, walked home and said he was unhurt, Rolland Court, 40, died before reaching the hospital. Some time after the accident Court complained of pain in the head. He was placed in an ambulance but died on the way to the hospital. Doctors said death was due to concussion of the brain. Court was struck by a skidding sleigh and fell on the ice.

Detroit—Violent death records were broken in Detroit and its environs in 1926, the list reaching 1,929, as compared with 1,651 in 1925. The list in 1924 totaled 1,224, while in 1923 it recorded 1,203. More fatal automobile accidents were reported than ever before, the records showing that 457 persons were killed or died of injuries this being an increase of 62 over that of 1925 when the list numbered 395.

Owosso—Charged with arson, in burning his own car to obtain the insurance, Merle Bennett, 22 years old, was placed in jail here. It is alleged that Bennett first reported his car stolen and when officers found it burned, and accused him of firing it, he confessed. Their suspicions were aroused by the fact that he was carrying more insurance on the car than it was worth and that he was still in debt on it.

Detroit—The pistols of Detroit gunmen took the lives of 225 citizens, according to the report of Lieut. Fred Frahm, head of the homicide squad. Against the gunmen's toll, police and citizens accounted for 99, of which the police killed 43. In the death toll there was listed eight policemen killed in the performance of duty. The report shows that 82 per cent of the murders were solved against 72 per cent solved in 1925 when there were 153 murders.

Detroit—With 23,000 new members added to the Detroit Automobile Club during the past year, it was announced that this club now claims the greatest membership of any organization in the American Automobile Association, having over 56,000 in Detroit and Southern Michigan. The touring department issued to members during 1926, 50,000 sets of license plates, 1,000,000 road logs, 400,000 complete road maps, exclusive of 24-hour touring information by phone.

Situation On Normal School

Groesbeck Fails to Keep Promise Made to Senator Pearson for Quick and Definite Decision.

Retiring Governor Groesbeck held his predijuce against Petoskey for a normal site, to the last minute of his administration, despite the urging of Senator William J. Pearson and others to approve the recommendation of the State Board of Education says the Petoskey Evening News in its issue of January 3.

After promising Senator Pearson several times that he would get busy on the matter and in spite of the fact that Groesbeck requested Pearson to come to Lansing four times during the month of December, no action was taken by the former governor, and it is now in the hands of the Green administration and the 1927 session of the legislature.

Hectic measures marked the effort of Groesbeck to foil the recommendation of the State Board of Education of Petoskey as the site for the fifth Normal.

It is reported that Superintendent of Public Instruction Coffey at one December meeting proposed striking out the word "Petoskey" in the resolution and inserting the word Cheboygan. This failed, according to reports, as did a similar one introduced by Mr. Cody of the Board of Education, with Traverse City as the substitute.

Messrs Freeland and Jefferies, are said to have stuck solidly to the first choice of the board namely Petoskey, and declined to be dominated by the wish of the Governor to have it in any place except Petoskey.

Senator Pearson's last conference with Groesbeck occurred in the last week of December, at which time he was assured by the retiring governor that he (Pearson) could have a decisive answer on the site matter at 2 o'clock on last Wednesday.

At 2 o'clock the Governor was in Detroit, and did not answer phone calls, his office there declaring he was in conference. After several attempts by wire and phone to get in touch with Groesbeck in accordance with his promise to Pearson a others, the Boyne Falls senator for home.

Subsequent develo
that in the interval
desperately to call
of the State Board i
to secure an eleven
the recommendati
on the site.

With members
ready to comply, one
was needed. Mr. Freelan
ing to reports was directed
to Detroit by the Governor
abruptly declined. Mr. Jef
could not be reached by phone,
the meeting did not occur.

Subsequently the former Governor issued a statement that he would take no action on the matter and would wash his hands of the obligation imposed upon him by the act, and which was inserted at his own request.

The "stall" given Senator Pearson, and the lack of consideration in giving a straight forward answer by Groesbeck, was freely and unfavorably commented on by many Lansing men who had been supporters of the Groesbeck administration, who declared that in their opinion Groesbeck wanted friends and loyalty only when he could make use of them.

Valuable Waterway

The Erie canal, which has been an invaluable piece of engineering to commerce and the economic progress of the land, was completed on October 26, 1825. The length of the canal is 868 miles.

Early Training

The child who has been allowed to handle scissors, pencil, paint and crayon at home will adapt himself to school work much more quickly because of the practice.—Children.

THE WHAT AND WHY OF A "DIURETIC"

Diuretics are used to aid the kidneys in carrying on their necessary work of picking out of the blood stream certain poisons which must be regularly carried off in the secretions to preserve the system from self-poisoning. Foley Pills, diuretic, in constant use over twenty-five years, a reliable, valuable medicine, aid in regulating this flow and in keeping the system free of the lurking poisons that cause certain phases of ill health and bodily pains. Satisfaction guaranteed. Ask for Foley Pills, diuretic. You may need them now.—Hite's Drug Store.

Mr. and Mrs. Henry Black of Ellsworth spent last Thursday at the A. Miles home.

Mr. and Mrs. Eugene Miles visited Sunday in East Jordan with Mrs. Anna LaLonde and daughters, Esther and Agnes.

Most everyone is suffering from the cold epidemic.

Julius Meiers of East Jordan visited Thursday afternaon with Dett Evans.

Mrs. Pauline LaLonde of East Jordan was out to her farm Friday.

The snow plow from East Jordan is keeping the road in fine shape for traffic.

Fred Bancroft was in East Jordan on business last Saturday.

Miss Sadie Murphy of Ranney Dist. visited at the A. Miles home last Friday.

Eugene Miles finished his log job last Saturday. He hauled about 600 pieces to the Lilak Bros. Mill.

Dett Evans visited last Monday evening at the home of his brother, James Evans in Ranney Dist.

Mr. and Mrs. John Weiland of Ellsworth spent last Friday visiting at the home of her parents, Mr. and Mrs. G. Steenhagen.

Mr. and Mrs. C. L. Strong of East Jordan, and Miss Cora and Paul Sterke were Sunday visitors at the A. Miles home.

NORTH WILSON
(Edited by Carl Bergman)

(Received last week too late for Publication.)

Mrs. Chas. Schroeder and children were Tuesday afternoon visitors at Bergmans.

Mrs. Effie Weldy and daughters, Doris and Margaret spent the week in Charlevoix as guests of her parents, Mr. and Mrs. Cook.

Mr. ad Mrs. Harley LaCroix were Sunday visitors at her mothers, Mrs. Fred Behling.

Edd. Weldy helped Carl Bergman haul hay to East Jordan Friday and Saturday.

Misses Bernice Courier and Margaret Staley were Sunday afternoon visitors at Frank Behlings.

School opened again after a weeks vacation.

Ellis Stapley is hauling wood to the schoolhouse this week.

Mr. and Mrs. Carl Bergman were Monday evening visitors at the Chas. Knop home.

Mr. and Mrs. Harry Behling and family were Sunday afternoon visitors at his parents, Mr. and Mrs. Frank Behling.

Mrs. Carl Bergman visited her sister, Mrs. Alfred Walden in East Jordan, Monday.

NOWLAND HILL
(Edited by Mrs. C. M. Nowland)

Mrs. E. W. Kurchinski and sons spent last week with Mrs. Ray Nowland at Mud Lake.

Mrs. A. R. Nowland visited her sister, Mrs. Chester Shepard of East Jordan a few days last week.

Miss Laura Derby of Boyne City spent the week end with Alice Nowland.

Mr. and Mrs. Ed. Weldy of North Wilson visited Mr. and Mrs. Ray E. Nowland, Sunday.

Mr. and Mrs. E. L. Nowland visited Mr. and Mrs. E. S. Brintnall of South Wilson last Friday.

Mr. and Mrs. Sam Nowland visited Mr. and Mrs. John Hott of Afton last Thursday.

Ivan Nowland left Jan. 8 for Milwaukee to resume his duties as Quartermaster on the U. S. Light House Tender Hyacinth, after a visit with relatives and friends.

Anson Hull is stopping at Luther Brintnalls and cutting chemical wood

Richard Collins of Detroit was a recent visitor at the home of his grandparents, Mr. and Mrs. A. R. Nowland.

State News in Brief

North Branch—Mrs. Mary Law, who was 100 years old last May, died at the home of her son, John Law, near here recently.

Kalamazoo—A carbuncle, to which he paid little attention at first cost the life of William Gibson, 51 years old. His condition did not become serious until recently when blood poisoning set in.

Detroit—Thomas Burke, two years old, died as the result of scalds suffered when he upset a basin of hot water. The basin of hot water was left on the floor for a few moments and the child fell against it, upsetting it on him.

Lansing—Michigan will receive $13,813 from the $7,500,000 highway fund for national forests which Congress has appropriated as a part of the federal aid road act for the fiscal year ending June 30, 1928, it was announced by the forestry service in Washington.

Sault Ste. Marie—Prevented by infirmities from summoning aid, John Andrews, 55 years old, who was found dead in his shack 18 miles south of here, is believed to have starved to death. No food was found in the house. Andrews apparently had been dead for several days.

Beulah—Earl Robinson, 35 years old, Frankfort, held since before the holidays in the Benzie County jail here on arson charges, hanged himself in his cell with a cord ripped from the bedding. Robinson was arrested after an investigation of the burning of his two cottages.

Houghton—Attracted by the revolving mechanism of a washing machine, Mary Marie, 3-year-old daughter of Mr. and Mrs. Edwart Chaput of Baltic, near here, placed her hand in the wringer while her mother was out hanging clothes and choked to death from screaming with pain. The child was dead when her mother reached her after hearing her cries.

Adrian—Fifty windows were cracked or shattered and two trees uprooted when a crowd of about 50 persons gathered in Blissfield to serenade a recently married couple with four explosions of dynamite. Although every pane of glass in his new home was broken, the bridegroom came out and passed cigars. Members of the sheriff's force obtained the names of 18 persons said to have been instigators of the explosive reception who have guaranted to pay the damages.

Detroit—Passengers left 19,466 articles in street cars and city-owned busses in Detroit during the year, was the department of street railways announcement. Of the number 5,712 were claimed by owners, while the rest was returned to finders. Owners got back $3,405.42 in lost cash during the year, while finders reaped a harvest of $1,734.42. Check owners proved luckier, for of checks totaling $4,42706, a total of $4,048.87 wa claimed, according to department records.

Lansing—Wayne county will receive $783,660 of the final $2,000,000 distribution of 1926 weight tax receipts, it was announced by the state highway department. Kent county is second on the list with $105,193; Oakland third, with $87,820; and Genesee fourth with $78,221. As was the case last year, the final payment on the $6,000,000 a year returned to the counties out of the weight receipts, was not made out of money received during the year, but has to be taken from funds collected for 1927 license plates.

Sault Ste. Marie—Two Round Island fishermen and a broncho played Robinson Crusoe on an ice raft a half mile square, eating frozen raw herring for two nights and three days while their raft of eight inch ice carried them far out into Whitefish bay to, Isle Parlesien, on which a light house is located and where only by chance they were able to make a hazardous landing. After a night's rest and a meal of cooked food, the men were brought back to Round Island by the assistant light house keeper in a 25-foot launch, broncho and all.

Ann Arbor—Gift of a set of standardization gauges from Edsel Ford of Detroit has been announced at the University of Michigan Engineering College. The set is a duplicate of one manufactured for the Ford Motor Company and will mark the beginning of a new standardization laboratory at the U. of M. The set contains 81 gauges, each of a highly polished steel and measuring from one-tenth of an inch to two inches. They will measure any object within these two lengths to the ten-thousandths with an accuracy of two-millionths of an inch.

Mt. Clemens—Under a bill favorably reported by the house military affairs committee, in Congress, an appropriation of $72,000 is authorized for addjitional and improved quarters for officers of the army flying post of Selfridge Field. Congress at the last session included an authorization for an expenditure of $750,000 at Selfridge, but no provision was made for officers' quarters. Of the total amount previously authorized, $570,000 was for permanent barracks and $180,000 for non-commissioned officers' quarters.

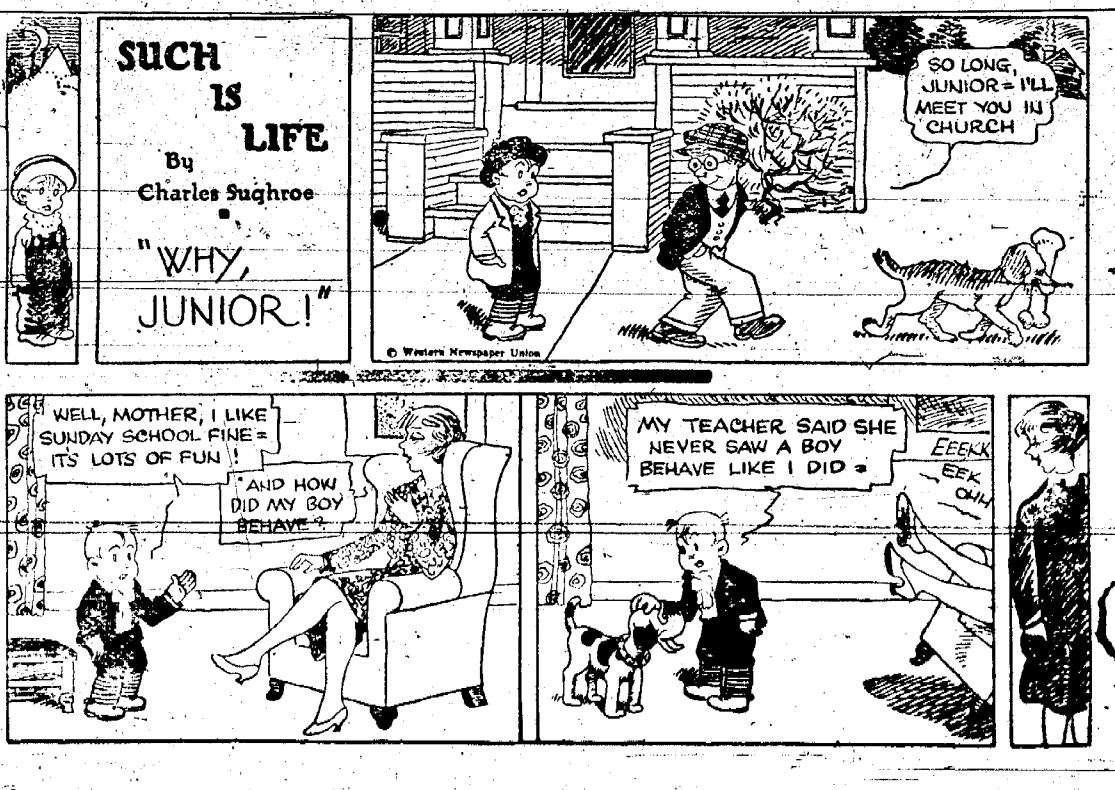

Her Father's Aid

Miss Agnes Hart Wilson, chief lieutenant and secretary to her father, William B. Wilson, secretary of labor in the Wilson cabinet and late Democratic candidate for senator in Pennsylvania. Miss Wilson and her father are now in Washington to watch developments in the Vare and other slush-fund matters.

BABY BEEF GAINS ON CORN FODDER

Practical cattle feeders have learned from experience that corn fodder is not satisfactory as the only roughage. Many have fed it as a supplement to legume hay and silage with good results, but its value compared to corn silage was apparently a question.

Colorado made a study by feeding two lots of baby beeves, in which one lot received corn fodder and the other corn silage. In addition both lots received barley, linseed oil meal and alfalfa hay.

From one acre 3.82 tons of dry cut corn fodder was obtained, which cost $15.45 a ton in the bin. The cost of one acre was $59.02. The corn silage received from one acre amounted to 11.7 tons, which was figured at a cost of $7.50 a ton. One acre yielded in corn silage $87.75 worth of feed. Both lots of calves were fed 208 days. The corn fodder lot gained 2.01 pounds per head per day, while those receiving corn silage gained 2.62 pounds per head per day.

In order that cattle feeders may figure the cost of gains at their own prices, the amounts of feed required for 100 pounds of gain are given here. The calves receiving corn fodder required 345.9 pounds of barley, 205.5 pounds of corn fodder, 51.6 pounds of linseed oil meal and 236 pounds of alfalfa hay for 100 pounds of gain. The corn silage calves required, for 100 pounds of gain, 350.7 pounds of barley, 52 pounds of linseed oil meal, 462.9 pounds of silage and 246.7 pounds of alfalfa hay. At prevailing prices when this test was made cheaper gains were put on by the corn fodder fed calves.

This test indicates that corn fodder will put on greater and cheaper gains than corn silage in a ration of barley, linseed oil meal and alfalfa hay for baby beeves.—B. W. Fairbanks, Extension Live Stock Specialist, Colorado Agricultural College.

Culling Demonstrations Given on Western Ranges

The old order is slowly changing on the open range in favor of the modern cattleman who substitutes quality for quantity to satisfy the changing demands of the consuming public for better weight and better quality beef. To help the cattlemen make this change, grading demonstrations are being conducted in the western range states by the United States Department of Agriculture all the way from the irrigated valleys of Washington and the mountain ranches of Montana and Wyoming south to the desert ranches of Arizona and New Mexico. These demonstrations are conducted on isolated ranches sometimes 75 miles from a railroad or at the shipping pens, using herds at hand, and are attended by cattlemen who often come 100 miles to learn how to cull and grade their cattle.

The financial benefits of marketing cattle by grades and the benefits of national standardization of grades, so that cattlemen everywhere may know what is meant by a certain grade, are being emphasized. In some of these remote valleys or isolated desert ranges are found remarkably good stock of good blood lines, type, and conformation

Exercise Is Essential for Ewes During Winter

An abundance of exercise for the ewes during the winter months is an important factor in making the breeding flock profitable. When given little opportunity to get out in the open, weak lambs, lacking thrift and vigor, are sure to be produced. A goal toward which the sheep man could profitably aim, is to so plan the feeding that his breeding stock would be obliged to walk as much as two miles every day. This often can be accomplished by scattering roughage over a wide area when the weather is clear. Another suggestion is to close the barnyards from the flock during the day, obliging the sheep to rustle for feed in the field.

Sheep Care at Lambing Time Is Very Important

In a few weeks the lambs will begin to appear, and now is time to get ready for them, advises E. G. Godbey, associate animal husbandman, who says that since sheep go through most of the year without much attention, there is a tendency to neglect them at lambing time, when they really need a little care and feed, yet every time a ewe fails to bring a lamb or loses a lamb the profit on that ewe is lost, for while her wool may pay the board bill, it will not return much profit.

Feeding Iron to Pigs

One of the newest adventures in live stock feeding at Iowa State college is the feeding of iron to pigs. Iron has been fed in the form of iron tube to fall fattening pigs and to young gilts that are to be kept over. It has been found that the iron causes the pigs to make more rapid gains at lower cost. The experimenters called attention to the fact that iron is one of the important constituents of the red color in blood, which is associated with vigor and vitality.

SCHOOL DAYS

Mother's Cook Book

If never a sorrow came to us, and never a care we knew;
If every hope was realized, and every dream came true;
If only joy were found on earth, and no one ever sighed,
And never a friend proved false to us, and never a loved one died,
And never a burden bore us down soul-sick and weary, too,
We'd yearn for tests to prove our worth and tasks for us to do.
—Edgar Guest.

EVERYDAY GOOD THINGS

A NICE way to cook ham, and one not very well known, is:

Baked Ham Steak.

Have a slice of ham (one and one-half inches or two is not too thick) from the center of the ham, trim it nicely and place in a baking pan. Sprinkle lightly with mustard and thickly with brown sugar. Around the ham lay six cloves, a bay leaf, one-fourth of a cupful of carrot cut fine, ane one-half of a cupful of celery cut into bits. Add one-half cupful of hot water, cover and cook an hour, then uncover and cook until tender. Serve on a hot platter and garnish with small mounds of cooked seasoned peas, carrots, string beans and glazed turnip.

Glazed Turnips.

Pare white turnips and cut into balls with a French cutter. Cook them in boiling salted water until tender, then drain. Put two tablespoonfuls of butter in a frying pan and when melted add one tablespoonful of sugar, then the turnip balls and fry them until well browned.

Black Walnut, Cheese Sandwiches.

Mix one cream cheese with enough cream to moisten nicely, add one-half cupful of chopped black walnut meats, season with salt, cayenne and a bit of black pepper. Serve on buttered rye bread. Serve with hot cider for a night lunch.

Fried Apples and Onions.

Take green apples cut into thin slices, cut onions into slices and cook them for a few minutes before adding the apples. Use butter or bacon fat to fry them. Serve hot as a garnish to pork or sausage.

Chicken Salad Eclairs.

Have ready fresh eclairs (they may be bought at any bakery). Remove a slice from the top of each and fill with chicken salad. Replace the top, insert a small piece of crisp lettuce in each end allowing them to curl slightly over the top. Sprinkle with paprika and serve with olives, salted nuts and coffee at a bridge party.

Nellie Maxwell

"Every dilemma has two horns," says Meditative Meg. "The chap who stops at railroad crossings is liable to get bumped in the rear by somebody who doesn't."

SOMETHING TO THINK ABOUT

By F. A. WALKER

YOUR MIND

EVERY man and woman should have a budget. There should be a business-like apportionment, of what you earn, to your needs and your tastes.

You will have to assign so much to rent. There will have to be an allowance for food and clothing, for the doctor and the dentist, for amusement and pleasure, for necessary travel and for unnecessary extravagances, for we all have our extravagances.

All these things will be promptly listed and thoroughly looked after. We shall probably be particularly liberal with those items which mean the least in the sum total of human happiness.

The last thing that will be thought about, and the most scanty allowance will be made for it, will be the development and betterment of our minds.

* * *

How much money did you spend last year on worth-while books—books you are keeping to read a second time—books that added to your wisdom or gave you something valuable to think about?

How much time did you spend in filling your mental storehouse with facts useful in daily life and valuable in your daily work?

Did you spend as much for information as you did for gasoline?

If you were to add together all the time you spent gaining knowledge, would it be half the time that you spent dancing?

* * *

Do not consider that money is the only thing you spend.

Time is your much greater asset. You can earn more money.

You cannot, with all the wealth of all the universe, in all the ages, buy one minute of time nor bring back for another and a better use a wasted hour.

* * *

Lord Brougham, a man who spent his time wisely and profitably, wrote down this short sentence filled with good advice: "Read something of everything and everything of something."

There is no excuse for any man, woman or child past twelve years spending less than half an hour a day with a good book.

Reading carefully and thoughtfully you will cover not less than 150 words a minute. That is 4,500 words a day. One million six hundred and forty-two thousand words a year. How much wiser do you think you would be if you did that for only one year?

Knowledge is the freest, the most inexpensive thing in the world and we think less of it than of anything else.

Stop making a pet of your stomach.

Stop worrying about your clothes.

Give up some of the useless things upon which you spend and waste your time and your money.

Make up a budget of your earnings and your hours that shall have in it a liberal allowance for your mind, for your intelligence, for your thinking powers.

What you have inside your head no robber can get, no Ponzi can transfer to his pockets. Not even old age can destroy it and perhaps not even death can take it away from you.

Be generous with your mind. Feed it. Nourish it. Care for it. It is the one part of you that really matters, the one thing upon which you should spend lavishly and continuously

Notable Exception

It is often said that the works of art never attain the perfection of the works of nature, but there are exceptions to all rules and, we like a mechanical loud speaker better than a human one. If only because we can shut it off when we want to.—Ohio State Journal.

Best Seed Will Increase Yield

Clean and Healthy Sweet Potatoes Are Only Kind to Plant.

(Prepared by the United States Department of Agriculture.)

Clean and healthy sweet potatoes of strains resistant to disease and most productive for the soil where they are to be grown, are the only kind to use for seed, says R. F. Poole, sweet potato specialist of the New Jersey agricultural experiment station.

"When buying Yellow Jersey sweet potato seed, the grower should demand certified seed or its equivalent. Certified seed sweet potatoes are obtained from fields that show very slight infection of scurf and stem rot, or none at all. These two diseases are transmitted in the plant-bed from diseased potatoes to sprouts, and are carried to the field on the latter.

Diseases Cause Loss.

Severely diseased seed potatoes may result in 50 to 100 per cent of diseased sprouts. In case of stem rot, a high percentage of the plants die soon after they are reset in the field, as well as during the summer. When scurf-infected sprouts are set, black, scurfed potatoes are generally harvested.

"Some strains of Jersey varieties which are more resistant to stem rot than others produce 25 to 100 bushels per acre more than the very susceptible ones.

Difference in Production.

"On the same soil there is a difference in the production of Red Jersey, Vineless Yellow Jersey, Gold Skin, and other Jersey strains. That is, the Red Jersey sometimes produces better than the Yellow Jersey strains on low sandy loam areas, while the Yellow Jersey strains sometimes give the best production on high "sassafrass" sands. The proper use of the Jersey varieties and strains will do much to improve the quality of the crop, as well as bring the production up to a profitable point, through the reduction of losses from disease."

The best time to procure a sufficient supply of good sweet potato seed is at the digging season. Growers who failed to do this, and have not yet laid in their stock, are advised to obtain a good supply now, and not wait until bedding time, when they may have to take any kind of seed they can get.

Passion Play Since 1633

The Passion play at Ober-Ammergau was established in the year 1633

The
Michigan Bell Telephone Company

Suggests the use of Long Distance Telephone Service as the most intimate way of keeping in touch with your boy or girl away at school. Encourage them to call home frequently at the low Evening and Night rates.

Evening and Night Rates

Reduced Evening rates are in effect from 7 p. m. to 8.30 p. m. on "Anyone" calls. Night rates, which are still lower, are effective from 8.30 p. m. to 4.30 a. m.

There is no further reduction at midnight

"Jeddart Justice"

The term "Jeddart justice" comes from a custom of the old border town of Jedburgh, England, where the alleged culprit was hanged first and his trial held afterward.

Origin of "Money"

The term "money" is derived from "moneta," a term applied to Juno, in whose temple at Rome money was coined, the said term being from "monere," to warn.

Sign of Industry

Very True

Striking while the iron is hot is all right, but too many men strike when the head is hot.—The Outlook.

Doctors Endorse

New Studebaker No-Draft Windshield

This diagram shows how the Studebaker no-draft ventilating windshield, when opened outward, directs the air up over the occupants' heads

IN the matter of giving professional endorsements, doctors are the most conservative of men. Nevertheless, many leaders of the profession have volunteered their approval of the new no-draft ventilating windshield (patented by Studebaker).

Keeps Out Rain—Lets In Air—Avoids Drafts

Opened inwardly, this new Studebaker windshield directs the air currents down into the driver's compartment. In this position the windshield is also waterproof. In the stormiest downpour, with a driving rain slashing head-on against the open windshield, none can enter the car.

Opened outwardly, it deflects the air in a gentle current up over the heads of the occupants.

In neither case is there any direct draft, yet tobacco smoke and stale air are carried off, while the supply of clean, fresh air is constantly renewed.

All Studebaker Custom Cars have the following equipment

Front and rear bumpers; engine thermometer and hydrostatic gasoline gauge on the dash; coincidental lock; oil filter; automatic windshield cleaner; rear-vision mirror; traffic signal light; 4-wheel brakes; full-size balloon tires; and two-beam acorn headlights, controlled from steering wheel.

Only the fact that Studebaker manufactures all the vital parts of its cars in its own great plants makes such outstanding values possible.

"Your No-Draft Ventilating Windshield not only adds considerably to the comfort of driving, but gives a definite protection against the ills caused by riding in a draft. I believe it to be a decided reform from cowl or open windshield ventilation."

DR. CHAS. J. WHALEN,
Past President,
Illinois Medical Assn.,
Editor, Ill. Medical Journal.

* * *

"I am glad to write you what I think about the new Studebaker windshield. I have been over the matter carefully and think that it looks so good I feel sure my next car will have it. It looks like a physical impossibility that any amount of draft can bother the occupants of the seats of the vehicle."

J. M. BLACKFORD, M.D.,
Seattle, Wash.

* * *

"In the new Custom Sedan which you have just brought out, the ventilating windshield attracted my attention. I believe this windshield and the ventilating system used thereon, is about the most attractive and up to date arrangement I have ever seen.

"I tried the full effects of the windshield on a rainy day and am very much enthused about the operation of same and the benefits derived therefrom."

J. T. TRAVERS, M.D.,
New York City.

* * *

"The new windshield ventilating system is ideal. Its 'overhead or underfoot' selective feature is excellent for the avoidance of the disagreeable draughts to which one is subjected in most cars; and its rainstorm ventilation is a triumph. No more hot, stuffy cars during summer showers."

DR. B. STEWART RALSTON,
Pittsburgh, Pa.

* * *

"The health protection afforded by the new Studebaker ventilation system is not only unique, but should prove very valuable to persons who are subject to colds and other ailments caused by sudden weather changes. Studebaker is to be congratulated on this important advancement."

R. B. GRIFFITH, M.D.,
Los Angeles, Cal.

STUDEBAKER

Keep Fit!

Good Health Requires Good Elimination

To be well, you must keep the blood stream free from impurities. If the kidneys lag, allowing body poisons to accumulate, a toxic condition is created. One is apt to feel dull, languid, tired and achy. A nagging backache is sometimes a symptom, with drowsy headaches and dizzy spells. That the kidneys are not functioning properly is often shown by burning or scanty passage of secretions. If you have reason to suspect improper kidney functioning, try *Doan's Pills*—a tested stimulant diuretic. Users praise them throughout the United States. *Ask your neighbor!*

DOAN'S PILLS 60c

Stimulant Diuretic to the Kidneys

Foster-Milburn Co., Mfg. Chem., Buffalo, N. Y.

STOP Coughs Colds- with FOLEY'S HONEY AND TAR

ESTABLISHED 1875

No Opiates, ingredients printed on wrapper

INSIST UPON FOLEY'S

HITE'S DRUG STORE

Ouch! Rub Backache, Stiffness, Lumbago

Rub Pain from back with small trial bottle of old "St. Jacobs Oil."

Back hurt you? Can't straighten up without feeling sudden pains, sharp aches and twinges? Now listen! That's lumbago, sciatica or maybe from a strain, and you'll get relief the moment you rub your back with soothing, penetrating "St. Jacobs Oil." Nothing else takes out soreness, lameness and stiffness so quickly. You simply rub it on your back and out comes the pain. It is harmless and doesn't burn the skin.

Limber up! Don't suffer! Get a small trial bottle of old, honest "St. Jacobs Oil" from any drug store, and after using it just once, you'll forget that you ever had backache, lumbago or sciatica, because your back will never hurt or cause any more misery. It never disappoints and has been recommended for 60 years.

SAYS RED PEPPER HEAT STOPS PAIN IN FEW MINUTES

Rheumatism, lumbago, neuritis, backache, stiff neck, sore muscles, strains, sprains, aching joints. When you are suffering so you can hardly get around, just try Red Pepper Rub.

Nothing has such concentrated, penetrating heat as red peppers, and when heat penetrates right down into pain and congestion relief comes at once.

Just as soon as you apply Red Pepper Rub you feel the tingling heat. In three minutes the sore spot is warmed through and through and the torture is gone.

Rowles Red Pepper Rub, made from red peppers, costs little at any drug store. Get a jar at once. Be sure to get the genuine, with the name Rowles on every package.

IF SKIN BREAKS OUT AND ITCHES APPLY SULPHUR

Just the moment you apply Mentho-Sulphur to an itching, burning or broken out skin, the itching stops and healing begins, says a noted skin specialist. This sulphur preparation, made into a pleasant cold cream, gives such a quick relief, even to fiery eczema, that nothing has ever been found to take its place.

Because of its germ-destroying properties, it quickly subdues the itching, cools the irritation and heals the eczema right up, leaving a clear, smooth skin in place of ugly eruptions, rash, pimples or roughness.

You do not have to wait for improvement. It quickly shows. You can get a little jar of Rowles Mentho-Sulphur at any drug store.

Lawyer Father of Kings

Charles Bonaparte, a lawyer in a small town on the Island of Corsica, was known as the "Father of Kings." He was the father of Napoleon I; Joseph, king of Naples; Louis, king of Holland, and Jerome, king of Westphalia.

LIVE STOCK NEWS

PROFITABLE AGE TO BREED GILTS

The majority of gilts used for breeding purposes are bred in the late fall of the same year they were born, farrowing the following spring at approximately one year of age. What influence does this early conception, pregnancy, and motherhood have on the ultimate development of the animal thus handled? Does the bearing of young at this early age effect the later development of the sow or does it affect the size and vigor of the first litter born?

The general concensus of opinion and observation among swine producers would say that breeding gilts no older than six months of age is too young.

Mumford of the Missouri station conducted an experiment to determine the influence of early breeding on gilts and their offspring. This work covered a period of more than 12 years during which time one group of gilts and their offspring were bred as soon as they came in heat; other sows and their offspring were bred for the first time at about eighteen months of age while still others were bred for the first time at thirty months of age. All pigs and sows throughout the experiment were liberally fed on well-balanced rations.

It was found that immature gilts bred at five months of age and twice a year thereafter developed into smaller animals at maturity than if they had not been bred until later. This decreased size is the result of the heavy drain on the sow during the lactation period rather than due to pregnancy.

Mumford says, "The diminished size of mature sows bred at such an early age has no very important practical significance in the production of swine for market, since the difference in size at maturity between animals bred at a very young age and those bred at a later age, is not significant."

Concerning the effect of early breeding on the pigs of young mothers, Mumford concludes that the main difference that might occur would come because of the failure of young mothers to supply a sufficient amount of milk for the most rapid growth of the pigs. This effect is not commercially very significant. The pigs from very young sows will require about ten days longer to reach 250 lbs. weight than will pigs from more mature mothers.

The foregoing discussion has to do with sows and pigs that were well fed. The results would not be the same where gilts are bred at a very early age and this followed by scant feeding

Coming Spring Pig Crop Must Have Proper Care

Success with the coming spring pig crop depends to a large extent upon the manner in which the brod sows are being handled at this time. During the winter sows should receive feed that will support their own bodies, as well as supplying material for growth of the litter. It must be remembered, however, that sows must not put on excessive fat during the gestation period.

There are very few home-grown feeds that cannot be fed with safety to the pregnant sow. Corn and oats can be used as a base for different rations, adding tankage, middlings, bran or shorts, skimmed milk, etc., according to the individual requirements. Barley may be cheaper than corn, and can be used to good advantage. With any ration exercise is of vital importance. Give the sow plenty of exercise, and force them to take some each day if necessary.

Live Stock Hints

Heavy feeding and no exercise on Sunday are bad for horses.

* * *

Any kind of millet hay fed in large quantities for a very long period of time is liable to be injurious to horses.

* * *

Beef production in the United States next year promises to fall somewhat short of that of 1926 on a tonnage basis.

* * *

Sows fed on mangels and a little alfalfa, or bright clover hay, need but very little grain feed, and they always produce strong, healthy litters of well-developed pigs.

* * *

Marked scarcity of mature or aged cattle has developed everywhere in the trans-Missouri pastoral region, the storehouse from which the corn belt draws its supply of raw material for beef-making purposes.

* * *

Remember that there is no animal that will lay on fat rapidly when it is squealing with the cold.

* * *

A decline in the number of hogs affected with tuberculosis is noticed along with the eradication of cattle tuberculosis.

* * *

A fine flock of sheep cannot help but be a delight to the owner, and building it up by culling out the undesirables and breeding to emphasize profitable characteristics soon becomes a fascinating occupation.

The Sandman Story

By Martha Martin

THE SKY CREATURES

IT HAD been rather a cheerless day. The sun had not come out, though at times it had seemed as though surely in but another moment it would come out.

And it had not really rained though at times there was a drop or so of rain which made people carry their umbrellas and wear their rubbers. Suddenly the sky creatures thought they would give the city people a party.

"Let's give some of those people who live in all those many, many

"How Beautiful It All Is," Said Another.

apartment houses some lovely sky treats," said the King of the Clouds to Mr. Sun, and Mr. Sun thought the idea was an excellent one.

"Of course," the King of the Clouds said, "all of the people will not be able to see us. They may not have windows which will look out just the way to get all the effect as I notice that Mother Rainbow over there has been shaking out her best frock. But many of them will see us. Oh, yes, we must all go."

"It will be splendid," said Mr. Sun, "and I think it was a nice suggestion of yours, King of the Clouds.

"I often feel sorry for people who only look out upon gray houses and the backs of houses and they get so used to looking at houses they really don't look up at the sky half enough."

"Oh, but we'll make them look up today," said the King of the Clouds. And all of a sudden the earth people were surprised by the beginning of the treat given to them by the Sky People.

It began to pour with such a gay flourish and dash. It was not like a steady downpour at all. It was a great and tremendous shower. A wonderful, exciting shower.

One lady telephoned to another in the city.

"It's the most terrific shower I've seen in many a day," she said.

And the lady at the other end of the telephone said, "It isn't raining up here at all."

But no sooner had she said that than she added, "Oh, yes, it's just beginning now! Oh, it's a terrific downpour, too! Dear me, I shall have to ring off, I must see that my windows are down."

For the King of the Ouolds had suggested to his children that they run races from the lower end of the city right up to the very furthest end, which was exactly what they had been doing.

Then as the children had raced right up town along came Mr. Sun and he and the King of Clouds laughed and chatted and even sang songs.

Then came Mother Rainbow and the Rainbow Brothers and all the Rainbow children dressed in their best. Mother Rainbow had them all grouped together according to their costumes just as she always does. The ones with costumes which were partly of one color and partly of another were the ones who were grouped between two distinct colors.

Oh, how lovely they all looked! And some went down very close to the earth and some were high up in the sky. The city people stood at their windows and called to each other.

"Oh, a beautiful rainbow," they said.

"See! It is a double rainbow," said another.

"And doesn't the sun look pretty through the rain?" said another.

"How beautiful it all is," said yet another.

And the Sun and the King of the Clouds and the Army of Raindrops and Mother Rainbow and all of the Rainbow children smiled their gayest and best and most wonderful smiles and the city people smiled, too, scarcely realizing that they were smiling.

"Call for the Cloud Fairies," said Mr. Sun to the King of the Clouds, and then they came. Oh, they were so lovely! They wore golden and silver costumes and cuffs and hats and though from the earth they couldn't be seen very distinctly, their lovely bright fluffiness could be seen.

The Mother Rainbow grew dimmer for she was taking the children back home with her as they had a marching lesson to take before bedtime. They had to learn to be so quick about marching to the right position when they were to appear before the earth people. But it had been a beautiful treat. And the city people rejoiced in the glory they had seen.

THE WHY of SUPERSTITIONS

By H. IRVING KING

TWO CURES

IN RURAL Canada the French Canadians have the following way of getting rid of rheumatism. They go out to a fence, and leaning the breast upon it, say: "I leave you here, I leave you here, I leave you here. Den you go 'way and don't you never come back dere no more."

In another section people suffering from biliousness bore three holes in a tree and then walk three times around the tree, saying each time: "Go away, bilious."

Here we go back again to primitive man, to tree worship and the doctrine of transference of disease. Also the conception of disease as an evil spirit. Moreover, we again encounter the mystic number three. As far back into history and tradition as man has been able to delve certain numbers were regarded as of mystic import. Why has never been discovered, perhaps never will be.

Primitive man regarded disease as an evil spirit which could be expelled from himself by providing for it another habitation. The person, animal, object upon which he wished the disease "caught it" from him. It was the primitive man's theory of contagion and beat the modern one "all hollow," in that when some one had "caught" the disease from you you no longer had it yourself.

The remnant of tree-worship in the two cures under consideration is obvious: The direct appeal to the tree in the one case and the contact with and appeal to the wooden fence in the other. In both cases the patients put their disease "up to" the tree-god who would know how to take care of it. Perhaps the boring of the three holes in the tree is to facilitate entrance of the disease into it.

Readiness to Believe

"O' course, Mrs 'Iggins, wot they're tellin' about 'er mayn't be true, but I always says: If this be 'earsay, make the most of it."—Boston Transcript

The Hotel Stenographer

By Roe Fulkerson

"OF COURSE I do not like to talk about myself," began the hotel stenographer, "but I—"

"You don't?" asked the house detective, "then why do a disagreeable thing like that?"

"Kelly, as a comedian you would make a fine grave digger," snapped the girl. "I was not going to talk about myself except to say I am like that Pharisee who thanked his stars he was not like other people but I cannot help be a bit crazy about myself when I listen to other people talk.

"Last night I took an automobile ride with a guy who took me home from a dance. He did the talking. I was planning a new dress so it didn't bother me much, but I got the drift of it.

"This chap talked about the things he knew most about, but if I had taken all the capital 'I's' he used and set 'em up for fence posts I could have fenced in half the United States. He told me how he felt about this and that, what he thought about these and those, where he had been hither and yon, where he ate, the kind of girls he loves, bobbed and shingled, the music he liked to listen to, loud and soft.

"If I had had my note book and taken it down I would know more about that guy than Bobbie Jones knows about golf or Sinclair about statesmen. But I wasn't interested and so I didn't listen. But, Kelly, what captures the cat's meow with me is why people think other folks will be interested in what is going on inside of their little peanut shells? Who can tell? I can't. I just don't do it, though."

(Copyright by the McNaught Syndicate, Inc.)

Interesting Bird

The redstart is one of the most common, sprightly and interesting of the migratory warblers. It ranges in summer all over the country as far west as the Rocky mountains, and nests in small trees. The rich orange red that varies the black of the general plumage of the male is represented in the female and young males by yellow

Experiments Prove That Milk Flow Is Continuous

For many years it has been taught that milk is manufactured during the process of milking and not collected in the udder. This was effectually disproved by the simple experiment of post-mortem milking at the federal dairy experiment farm, Bettsville, Md. The udders of two cows were removed immediately after slaughter and found to contain 11 and 20 quarts respectively. This represented practically 85 per cent of their normal milk production.

"These experiments prove quite conclusively that milk secretion is a continuous process," says George H. Glover, Colorado Agricultural college. "A large proportion of the milk secured at any milking is collected and stored within the mammary gland before milking is commenced. Furthermore, the liberation of milk from the udder does not depend upon a nervous or mechanical stimulation, or internal muscular contractions. It is thus apparent that a phonograph is no longer necessary to produce a larger milk secretion in the dairy herd."

Cattle Feeders Advised to Market Light Stock

H. J. Gramlich, head of the department of animal husbandry of the University of Nebraska, told a Cattle Feeders' day audience at University farm that in five years 90 per cent of the cattle going to market will weigh under 700 pounds. From a commercial or retail shop standpoint the little animal not highly finished is in best demand, he said.

"We are coming to a time when we will produce super baby beef—good carcasses at weaning time," he said. "Carcasses such as these are light and dress out good. The feeder who is shipping his cattle before they are eighteen months old, preferably fifteen months old, will get along. The public doesn't want weighty carcasses."

Some papers think it would be better to leave Rumania alone than a loan.

PROBATE ORDER

STATE OF MICHIGAN, The Probate Court for the County of Charlevoix.

At a session of said Court, held at the Probate office in the City of Charlevoix in said County, on the 3rd day of January, A. D. 1927.

Present: Servetus A. Correll, Probate Judge.

In the Matter of the Estate of Ida Misenar, Deceased.

The above estate having been admitted to probate and Belle Roy, appointed executrix thereof.

It is ordered that four months from this date be allowed for creditors to present their claims against said estate, and that such claims will be heard by said court on Friday, the 6th day of May, A. D. 1927, at ten o'clock in the forenoon, at the Probate office in the city of Charlevoix.

It is further ordered That public notice thereof be given by publication of this order for three successive weeks previous to said day of hearing in the Charlevoix County Herald, a newspaper printed and circulated in this County.

SERVETUS A. CORRELL,
Judge of Probate.

MORTGAGE SALE

Default having been made in the terms and conditions of a certain mortgage made and executed by Wellington Baker, a single man, of East Jordan, Michigan, to Fred Martin of East Jordan, Michigan, which said mortgage bears date the 19th day of September, 1925, and was recorded on the 25th day of September, 1925, in Liber 67 of Mortgages, on page 48, in the office of the Register of Deeds in and for the County of Charlevoix, Michigan; that said mortgage is past due and there is now claimed to be due and unpaid on said mortgage the sum of Six Hundred Eleven and 10-100 ($611.10) Dollars, at the date of this notice including principal, interest and attorney fee; that no suit or proceedings at law or in equity have been instituted to recover the moneys secured by said mortgage or any part thereof.

NOW, THEREFORE, by virtue of the power of sale in said mortgage and of the statute in such case made and provided NOTICE is hereby given that on Monday the 31st day of January, 1927, at Ten o'clock in the forenoon, standard time, at the front door of the Court House in the City of Charlevoix, County of Charlevoix, State of Michigan, (that being the place where the Circuit Court for the County of Charlevoix is held) said Fred Martin will sell at public auction to the highest bidder the premises described in said mortgage, or so much thereof as may be necessary to pay the amount due on said mortgage and all legal costs.

The premises described in said mortgage are as follows:

"The South-east quarter (¼) of the South-east quarter (¼) of Section Twenty (20), Township Thirty-two (32) North, Range Seven (7) West, containing Forty (40) acres of land, more or less."

Briefs of the Week

Frank Bennett of Detroit is here for a visit with friends.

Jay Hite was at Grand Rapids and other points on business this week.

Born to Mr. and Mrs. Russell McClure, a daughter—Alice Elinor—Jan'y 5th.

Born to Mr. and Mrs. Harry L. Saxton, a son—Charles Edward—Jan'y 11th.

Our 9c Sale starts Thursday, Jan. 20th. Don't miss it. Eff an Dee Variety. adv.

Mr. and Mrs. Oscar Kidder were called to Cadillac this week by the death of her sister.

Mr. and Mrs. Clark Lunger left Thursday for Grayling, where they will make their home.

Mr. and Mrs. John J. Mikula with son, were here from Ionia first of the week for a visit with friends.

Big bargains in Men's Dress Shirts $1.50 and $1.75 values for $1.13 at East Jordan Lbr. Co. store. adv.

The Bible Class of the Methodist Church will hold a Bake Sale at the Company store this Saturday afternoon, Jan. 15th. adv.

Born to Mr. and Mrs. George Phillips of Flint, a son—Donald George— Dec. 23rd. Mr. and Mrs. Phillips were former residents of East Jordan.

Mr. and Mrs. L. A. Hoyt returned home last Saturday from a visit with their son, Carroll and family at Iolia, Kansas. They also visited at Chicago and Detroit.

Miss Vivian Anderson of Boyne City and Marion Russell of the Peninsula were united in marriage at the apartment of Mr. and Mrs. Walter Wurn on Water St., in Boyne City last Friday evening, Jan. 7, Rev. Linnell officiating.

The M. E. Ladies Aid will serve a Supper at the church parlors, Friday evening, Jan'y 21, beginning at 5:00 o'clock. Adults, 50c; Children, 35c. Patronage of the public will be appreciated at this time, as funds are being raised for the completion of the Church building. adv.

Mrs. L. E. Willard of Seattle, Wash., passed away at her home on Dec. 28, 1926, being 84 years of age. Mrs. Willard was formerly a resident of East Jordan, moving here in 1885 with her husband, Dr. Willard and two children, Lois and Will. Mrs. Willard moved West several years ago, following the death of her husband in Chicago.

John Hall went to Flint this week to seek employment.

Miss Lucy Mayhew returned home last Saturday from a visit at Detroit.

Mrs. John Rude underwent an operation at the Charlevoix hospital.

Miss Dorothy Zoulek went to Detroit last Saturday, where she has a position.

Mrs. Ida Pinney was called to Muskegon by the illness of her son, Clayton Pinney.

Mrs. Matthew Cipra who has been visiting in Cleveland, Ohio, came home last Saturday.

A. G. Rogers and S. E. Rogers are at Chicago this week attending the National Road Convention.

Thomas Brennan, who has been home for a visit, returned to his studies at Detroit last Saturday.

Special Sale on Men's Dress Shirts, $1.50 and $1.75 values, for $1.13 at East Jordan Lbr. Co. store. adv.

Clifford LaClair has opened a Barber Shop in the Russell Hotel and will appreciate your patronage. adv.

Bigger and Better than ever the 9c Sale starting Thursday, Jan. 20th, lasts seven days. Eff an Dee Variety. adv.

W. P. Porter left Tuesday for Grand Rapids, where he joined his son, Donald Porter and they left on a motor trip to Arkansas.

Miss Leila Clink left Wednesday for Arizona, where she has gone for her health. Her father, Att'y E. N. Clink accompanied her to Chicago.

The "Musical Tea" given by the Lutheran Ladies Aid at the home of Mrs. Andrew Nelson, Wednesday afternoon was very well attended. The program opened with a duet by Misses Margaret Staley and Henrietta Severance; solo by Mrs. M. Litner and Mrs. W. H. Sloan, accompanied by Mrs. L. G. Balch at the piano; solo by Miss Margaret Gunderson; Mrs. V. J. Hufton gave a pianologue. Music was then further rendered throughout the afternoon while dainty refreshments were being served.

A social function was held at the home of Miss Blanche Kowalske at Maple Grove on the Hill, Wednesday afternoon. The affair was in the nature of a surprise party for Miss Blanche, who is still confined to the home following an operation. The party was sponsored by the pupils of the 4th grade, who were conveyed to the residence by the gentlemen of the class, who provided horses and sleighs for the occasion. Music and games were enjoyed, and all members of the grade who were unable to attend wrote very exceptable letters and sent by the others many books and magazines for Miss Blanche's entertainment.

British Tea Consumption

More than a million pounds of tea is required to supply the people of Great Britain with each day's beverage.

HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Right Up.

Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more hawking, snuffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swolleh mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh.

Colors That Soothe

If you can't sleep try painting the walls of your bedroom a dainty mauve. It works fine in St. John's hospital, London, as do other colors in place of the usual white.

No True Friend

Some say money is our best friend, but a true friend does not have to be held so tightly to keep him from getting away.—Pittsburgh Chronicle-Telegraph.

How It Works

When there's a gasoline war you can burn a nickel's worth of gas and reach a place where you can save a nickel on five gallons.—Washington Post.

Stop That Cold

Before another day

A cold may be stopped in 24 hours, the fever checked, the bowels opened, the entire system toned. The way is HILL'S—a way so efficient that we paid $1,000,000 for it. Don't rely on lesser help, and don't delay. Get the quick, complete results that HILL'S is bringing millions.

HILL'S Cascara-Bromide-Quinine

Be sure you get HILL'S, in the red box with portrait. At all druggists—30c.

Factors Fixing Price of Hogs

Present and Prospective Supplies Are Among Dominant Influences.

(Prepared by the United States Department of Agriculture.)

Financial returns to hog producers depend to a considerable extent upon how well they adjust the volume of their production to the demand for the product, declares the Department of Agriculture as a result of a study of the factors that affect hog prices.

The dominant influences in the hog market, says the department, are the supply of hogs on the market and expected to arrive on the market within the next few months, the quantity of hog products in storage, the general price level, general business conditions, and the prices of alternative products. The general levels of demand, here and abroad, are both important, but ordinarily change only slowly.

Hog-Price Cycle.

The so-called "hog-price cycle" was found by the department to be due to the tendency of hog producers to overshoot the mark in increasing production when the relation of hog prices to corn prices was favorable, and to reduce too much when it was unfavorable. This excessive reaction, says the department, resulted from the accumulation of production changes during the interval before reduced or increased breeding began to offset market receipts and prices.

Coupling the corn-hog ratio, indicating what changes were likely to occur in breeding, with other factors indicating changes in the weight of hogs and the demands of the consumers, the department believes that very good forecasts of hog prices could have been made for the prewar period. Since the war, however, conditions have been so unstable that the purely mathematical formula has not given such satisfactory results.

Information From Surveys.

The department believes that its pig surveys have provided the hog market with much better information as to prospective supplies than were available before the World war, while the agricultural outlook reports of the department and similar information from other sources may be tending to change farmers' reactions.

Full details of the study have been published in Department Bulletin 1440-D, entitled "Factors Affecting the Price of Hogs," copies of which may be obtained from the Department of Agriculture, Washington, D. C.

Diseases of Lambs Are Discussed in Bulletin

With the increase in the lamb feeding industry in Colorado diseases have made their appearance, and in some years losses have been excessive. As the winter feeding season is in full force a bulletin published by the Colorado experiment station on "Diseases of Colorado Feeding Lambs" becomes particularly timely.

This bulletin is prepared for the feeder, to whom it will furnish valuable information. It will also serve veterinarians who practice in lamb-feeding districts and to whom the feeder will naturally turn for advice and counsel.

Among the diseases which cause a loss in lambs on winter feed it deals briefly with the following: Hemorrhagic septicemia, paratyphoid dysentery, coccidial dysentery, overeating, sore mouth, indigestion, bloating, diarrhea, pneumonia, scab, ticks and others.

Vital Plant Foods Lost When Straw Is Burned

Some small grain farmers still burn their straw stacks apparently unaware that straw is valuable.

Clean straw should be used for bedding whenever possible. It may thus add to the comfort of farm animals and later replenish the soil by its return to the land as manure. It is realized that more straw is produced on many farms than can be used for this purpose. Where a large surplus of straw is on hand it is sometimes desirable to scatter it over the land, disking it in, and plowing it under as fertilizer. Sometimes soil moisture is a limiting factor and means that the straw would remain in the soil for a long time unrotted. A good practice would be to leave the straw stack to rot and later haul the residue to the land as manure. It takes a year or more for the straw to rot, depending on the rainfall. The stack should be located where it will not seriously interfere with cultural operations.

FARM NOTES

Bring in all the farm machinery and store it.

* * *

Good foundations under buildings are one of the most important things about buildings.

* * *

Keep plenty of fresh water before the fattening hogs. Slop will not answer the purpose.

* * *

The man who departs from the beaten track of a good balanced ration pays for it sooner or later.

* * *

A movable brooder house with a coal stove in it is an economical means of raising a large number of chicks at one time.

LIVE STOCK

BUSINESS SENSE FOR LIVE STOCK

Emphasis today must be placed on the business side of farming and this is especially important in live-stock farming. The producer who does not arrange his production and marketing according to markets and costs will fail.

"The successful live stock farmer always figures to get the greatest amount of profit from his finished stock," says W. W. Shay, swine extension specialist at the North Carolina State college. "The man who had 75 hogs averaging 175 pounds each on September first had a total of 13,125 pounds, and the price was $15 per hundred, making their value at the market amount to $1,968.75. If the freight rate from his station was 30 cents per hundred on a minimum car of 16,000 pounds or $48, this subtracted from the gross price would have left him $1,920.75. If the cost of raising the hogs was $7 per hundred, or $918.75, his net profit on the car would be $1,002 minus yard charges and shrinkage."

But this farmer should not have sold for another two weeks, in which time he could easily have added another 20 pounds to each of the hogs, making them average 195 pounds each and with a total weight of 14,625, when at the same price they would have been worth $2,193.75. Making the same deductions for freight and cost of production, he would have had a profit of $1,122. In other words, the profit on the car of hogs would have been increased by $120 for the two weeks of feeding, which is $60 per week for his labor.

In the first case, states Mr. Shay, there was a profit per pig of $18.36, and in the last case a profit per pig of $14.96. The price might have gone down, but this is hardly likely during September, according to an average of several years' prices. Measured in terms familiar to North Carolina farmers, Mr. Shay estimates the loss of selling too soon to be the market value of over two bales of cotton.

Bedding Farm Animals in Summer and Winter

Bedding farm animals is a fine practice and ought to be done both summer and winter for many reasons. In the first place the farm animals, when in the stables any time in the year, keep clean. During the winter season animals well bedded are made more comfortable than when compelled to stand on the wet, cold manure. If they lie down they do not get all stained and plastered with urine and excrements and difficult to brush and curry.

For bedding there is nothing so good as finely cut straw, and it should be used freely. Its absorbing qualities keep the urine well preserved and add very much in making the manure what it should be when spread on the fields.

Most farms have quite an abundance of straw, and it can be made of great benefit if used as bedding. In fact, there is no other use for most of the straw. This gets it back on the fields where it rightly belongs after the grain is removed.

To sell straw is a great waste, and counting the expense and the time it takes to bale it and haul it to market, a farmer gets but very little for it. Make it into manure by bedding all the farm animals with it, and very much profit is derived from increased fertility of the soil.

Live Stock Items

Change the pastures often and if possible keep the ewe lambs separate from the old ewes.

* * *

Watch the ewes to see that dung tags do not collect. Keep them clipped away, especially during the breeding season.

* * *

Keep the ewes out of the cockleburs. Do not allow them to get their wool filled with burs. This not only makes them look unsightly but it is very damaging to the wool.

* * *

The shipper who is wise will, if it is at all possible, make shipment of his hogs as different individuals are ready for the market. He can thus get at least an average of market conditions.

* * *

With age, the wool usually becomes coarser, shorter and less dense. Size is a factor, too. A large sheep is a hearty feeder and should shear a fairly heavy fleece if it is to be a paying animal.

* * *

Ventilation of calf barns can usually be easily secured by having the windows tip in at the top.

* * *

Plenty of sunshine and good ventilation are perhaps the most important factors in keeping calves healthy during the winter months.

* * *

The man who has had experience, and carefully noted things, has found that when a horse works hard he must have about all the good hay and oats that he will eat up clean if he keeps his weight and strength.

REPORT OF THE CONDITION OF

STATE BANK OF EAST JORDAN

at East Jordan, Michigan, at the close of business December 31, 1926 as called for by the Commissioner of the Banking Department.

RESOURCES

	Commercial	Savings	
LOANS AND DISCOUNTS, viz.:			
Secured by collateral	$ 90,440.51	$ 10,150.00	
Unsecured	115,444.29	80,000.00	
Items in transit	19.50		
Totals	$205,904.30	$40,150.00	$246,054.30
BONDS, MORTGAGES AND SECURITIES, viz.:

STATE OF MICHIGAN, County of Charlevoix—ss.

I, ROBERT A. CAMPBELL, Cashier of the above named bank, do solemnly swear, that the above statement is true to the best of my knowledge and belief and correctly represents the true state of the several matters therein contained, as shown by the books of the bank.

ROBERT A. CAMPBELL, Cashier.

Subscribed and sworn to before me this 5th day of Jan'y 1927.

INEZ COLDEN, Notary Public.

My commission expires August 24, 1930.

Correct Attest:

CHAS. H. PRAY
J. J. VOTRUBA
W. P. PORTER
Directors

Window That "Sticks"

Have the window sashes become swollen so you can't raise them? If there are some you cannot "budge," just melt a tablespoonful of lard and pour a little between the casing and window frame. If this is not sufficient, pour some on the roller and grease the rope with it. You will be surprised how easily your windows can then be opened.

Controlling Ostriches

Ostriches are difficult to control. A man shipping several of them used a pole with two metal prongs arranged in V-shape at its end and storage batteries in the handle to control the ostriches. He could energize the metal fork by pressing a button just as he caught the neck of one of the big birds between the tines.

BAYER

Genuine

ASPIRIN

SAY "BAYER ASPIRIN" and INSIST!

Proved safe by millions and prescribed by physicians for

Colds Headache Neuritis Lumbago
Pain Neuralgia Toothache Rheumatism

DOES NOT AFFECT THE HEART

Safe

Accept only "Bayer" package which contains proven directions.

Handy "Bayer" boxes of 12 tablets
Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylic.

Children Cry for

CASTORIA

MOTHER:— Fletcher's Castoria is especially prepared to relieve Infants in arms and Children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

To avoid imitations, always look for the signature of Chas. H. Fletcher.

Absolutely Harmless - No Opiates. Physicians everywhere recommend it.
